## Warranty 24 months

### The Conteg Company

#### **increases standard warranty period up to 24 months**

from the first start-up on all precision air conditioning units **CoolTeg Plus\***, **CoolTeg Small** and **CoolTop** series. The reason for extension of the standard warranty period is the high reliability and quality of these air conditioning units which is verified by several years of operation at our customers.

This warranty is valid only if the first start-up is executed by Conteg or by Conteg certified service partner. To achieve warranty 24 months, the customer has to make preventive inspections of the air conditioning units at least twice a year. Conteg certified service partner will send the completed maintenance protocol to e-mail address [cooling@conteg.com](mailto:cooling@conteg.com). If the preventive inspection is not executed or documented, the warranty ends after 12 months from the first start-up. During the warranty period, it is necessary to use only original spare parts from Conteg, spol. s.r.o.

\* CoolTeg Plus XC40 – standard warranty 2 years, 1 year for integrated compressor and inverter.
